

1 (4) documentation of the willingness of all necessary parties to implement the proposed
2 collection system;

3 (5) a description of the performance measurers to be utilized and reported by the
4 manufacturer to demonstrate that the collection system is meeting capture rate targets and other
5 measurers of program effectiveness as required by the department of health; and

6 (6) a description of additional or alternative actions that will be implemented to improve
7 the collection system and its operation in the event that the program targets are not met. The
8 collection system plan may utilize or expand on existing collection and recycling infrastructure
9 where feasible and cost-effective. Any plan submitted which does not utilize existing collection
10 and recycling infrastructure shall describe the reasons for establishing a separate collection
11 system. Where establishing a separate system, manufacturers are required to develop, implement,
12 and maintain the collection system, alone or in conjunction with other entities.

13 **23-60.2-3. Cathode ray tube - Reporting. - -** No later than two (2) years following the
14 implementation of the collection system plan required under section 23-60.2-1 and biennially
15 thereafter, the manufacturer or entity that submitted the plan on behalf of the manufacturer and is
16 implementing said plan shall be required to submit a report to the department on the effectiveness
17 of the collection system. The report shall include an estimate of the numbers of cathode ray tubes
18 that were collected, the capture rate for the cathode ray tubes or components, the results of the
19 other performance measurers included in the manufacturers collection system plan, and such
20 other information as the department of health may require. Such reports shall be made available
21 to the public by the department of health.

22 SECTION 2. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO HEALTH AND SAFETY - CATHODE RAY TUBE CONTROL

- 1 This act would require the department of health to regulate the collection and disposal of
- 2 cathode ray tubes.
- 3 This act would take effect upon passage.
